DOLAN FIRE SITUATION | [WEBSITE](#) | [MAPS](#) | [UPDATE](#) | [VIDEO](#) | [PHOTOS](#) | [FACEBOOK](#) | [TWITTER](#)

September 22, 2020: Wildfire activity can change quickly and so evacuation warnings and orders may also change at any time. Click [here](#) for an interactive map of Monterey County evacuations. To receive emergency notifications regarding evacuations and critical events in Monterey County please sign up for [Alert Monterey County](#).

Caltrans, in coordination with Monterey County, has opened Highway 1 from Gorda to Lucia. There are still pockets of heat near the highway that will be monitored by fire personnel using infrared technology. Travelers are advised to continue using caution and be aware of emergency vehicles in the area.

As a reminder, the Los Padres National Forest remains closed at this time. For more information visit: <https://www.fs.usda.gov/lpnf/>.

Pacific Northwest Team 2 will transfer command of the Dolan Fire today at 6:00 p.m. to California Interagency Incident Management 15, a Type 2 Incident Management Team with Incident Commander James Harris.

Fire behavior remains moderate on the Dolan Fire that has now burned more than 200 square miles along the central coast of California south of Big Sur along Highway 1. While conditions remain hot and dry in the area, fire behavior has been minimal in recent days, allowing firefighters the opportunity to hold and improve containment lines across much of the fire.

Uncontained fire perimeter in the Ventana Wilderness and near Arroyo Seco is too dangerous for firefighters to directly access. Indirect containment lines have been constructed along Arroyo Seco Road and along high ridge tops around Arroyo Seco, and in the 2008 Indian Fire scar south to Pine Canyon. While these lines have been constructed as a precaution, the fire has made little movements north and east in recent days. Heavy helicopters are assisting firefighters in cooling hot spots along the fire perimeter and are keeping the fire in check at this time.

The south side of the fire has been secured through strategic and methodical burnout operations connecting Highway 1 across Prewitt Ridge and McKern Road to the Nacimiento-Ferguson Road at Fort Hunter Liggett.

Two of the three firefighters hospitalized after a burn-over on September 8th were released on the 9th. The third is in stable condition and still receiving treatment. A learning review is currently being conducted.

Nacimiento-Ferguson Road is closed to all traffic from Highway 1 to the Fort Hunter Liggett base boundary line

Size 128,417 Acres
Percent of Perimeter Contained 46%
Estimated Containment Date Tuesday, October 13, 2020 approx. 12:00 AM
 Extreme, Short Crown Runs, Uphill Runs, Wind Driven Runs

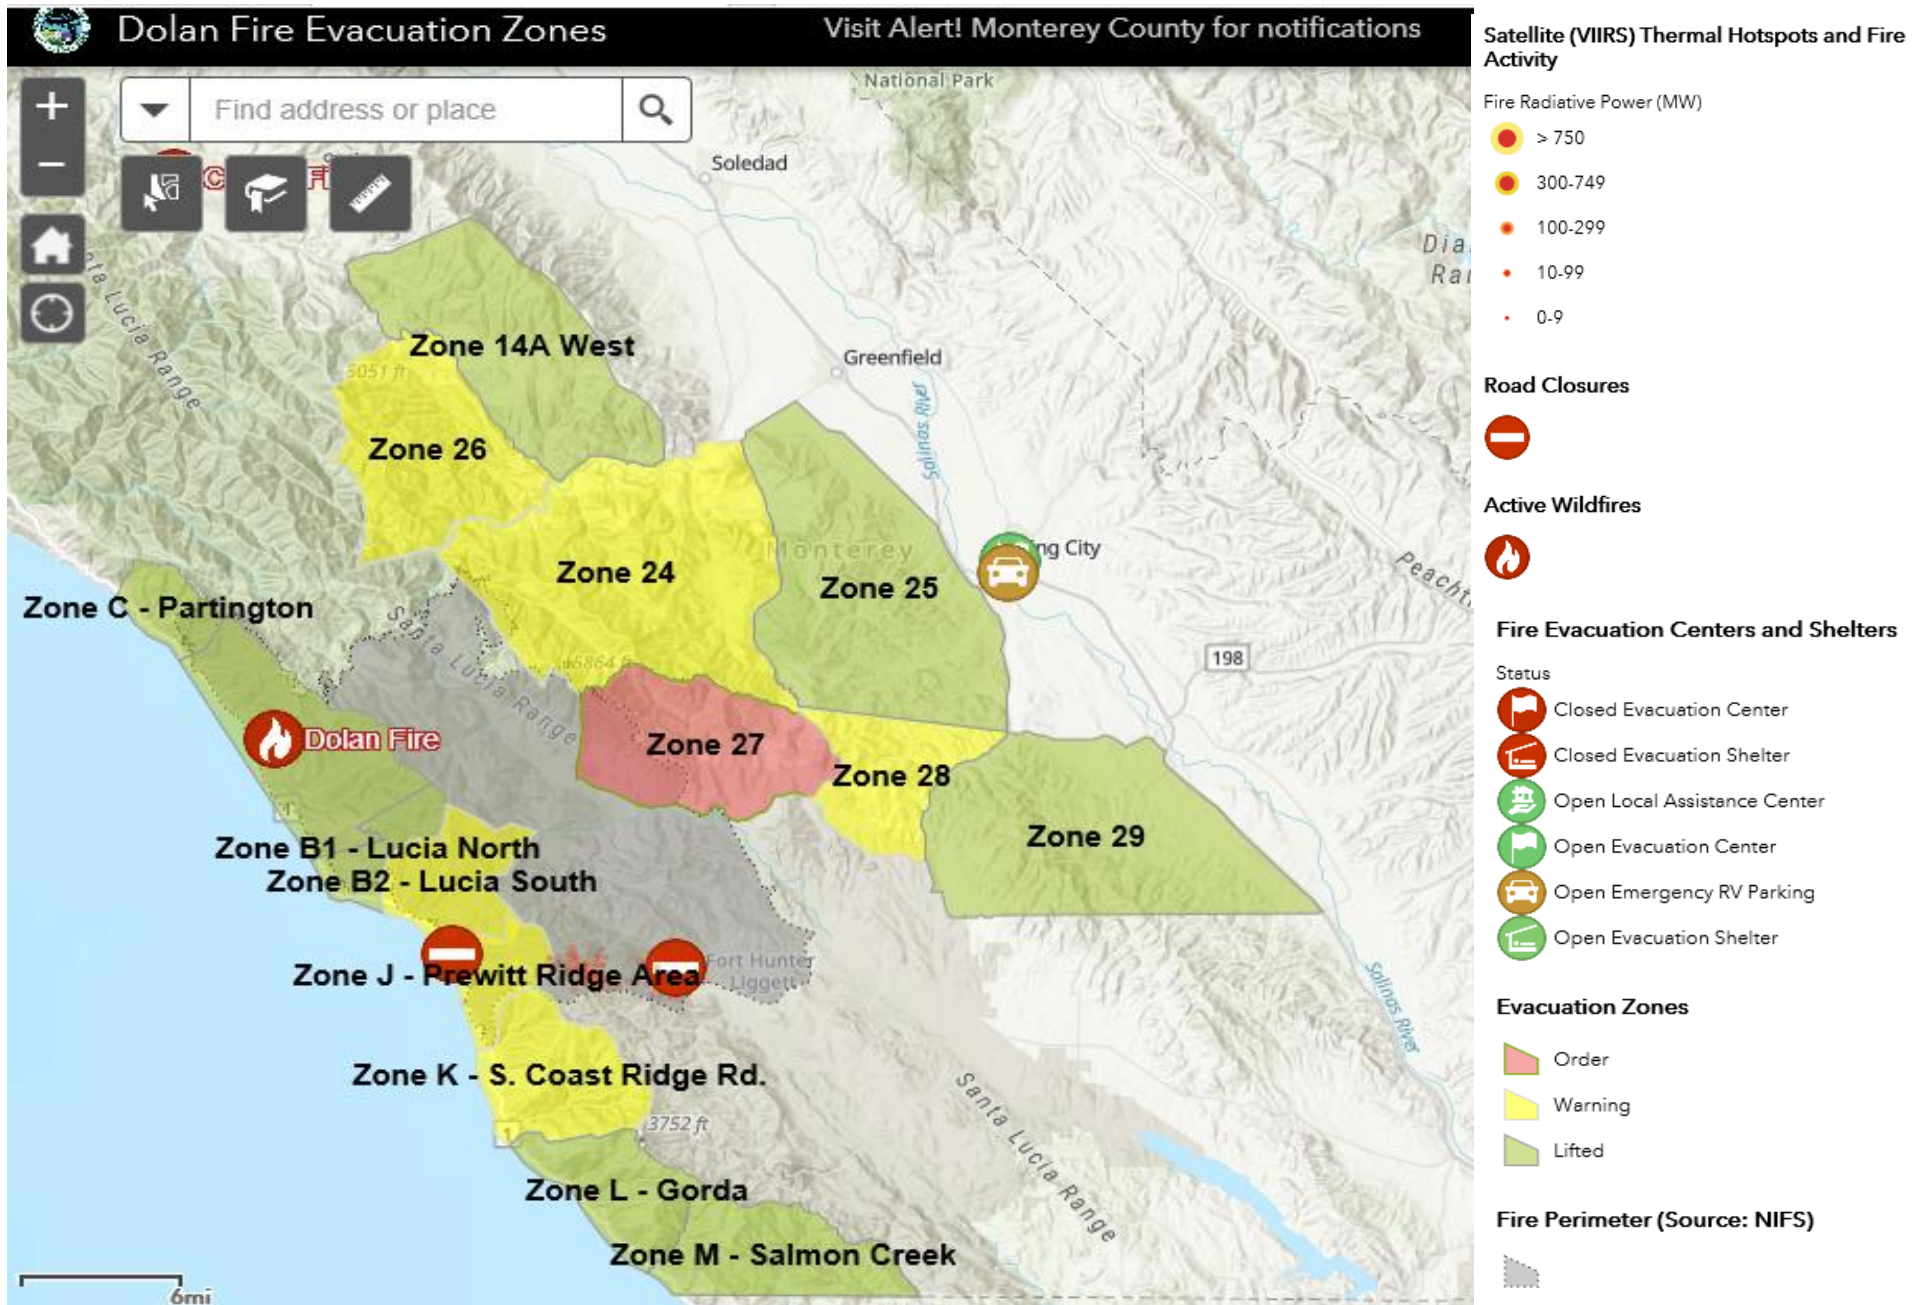

Significant Events

Narrative:

The area is surrounded by recent fire scars except to the SE where there is no record of much of that landscape burning since 1999 if not earlier. Recent burn scars (Sobranes) have helped reduce fire spread. In the 2008 fire scar areas, where shrub growth is recent the fuels aren't receptive. Where there are dead fuel components (older, decadent brush) fuels are receptive and are carrying/consuming well. A fire behavior advisory is in place for the mountain PSAs of Southern California for extremely dry fuels. Low live fuels moistures combined with poor humidity recoveries can result in very active fire behavior on the Dolan fire, even in the absence of significant winds.

CARE AND SHELTER

- For Dolan Fire evacuees who must head south, there is a Red Cross line for emergency shelter: 805-788-2307. This phone number is for housing needs only and does not provide any fire information.
- For those leaving Dolan Fire zones and want to shelter in their RVs, there is limited space available at the Salinas Valley Fairgrounds, 625 Division Street in King City. Please check in at the Administrative Office or call 831-385-3243.
- An Evacuation Center is open at the King City Library (402 Broadway St, King City, CA 93930). Open 10am to 6pm daily until no longer needed.

COVID-19 - TO VIEW THE GRAPHS THAT WERE PREVIOUSLY FEATURED IN THE DAILY SITUATION REPORT PLEASE VISIT THE HEALTH DEPARTMENT WEBSITE [HERE](#).

Novel Coronavirus is an outbreak of respiratory disease caused by a novel (new) coronavirus that was first detected in China and which has now been detected in more than 100 locations internationally, including in the United States. The virus has been named “SARS-CoV-2” and the disease it causes has been named “coronavirus disease 2019” (abbreviated “COVID-19”). All data is developed by the Health Department. For questions, comments, and concerns, call 831.769-8700 or 831.755.4521 or email covid-19@co.monterey.ca.us.

Note: Data includes records processed and de-duplicated from the backlog of reports associated with the statewide surveillance system’s lab routing issue. The data cleaning process is ongoing locally. Data will be adjusted as case interviews are conducted and additional laboratory reports are received. Therefore, data should be interpreted with caution

- Jan 26, 2020 – First confirmed case in California.
- January 21, 2020 – First confirmed US case in Washington State.
- December 31, 2019 – First confirmed case of COVID-19 in Wuhan, China.

STATUS OF SHELTER-IN-PLACE

Governor Gavin Newsom today unveiled the Blueprint for a Safer Economy, a statewide, stringent and slow plan for living with COVID-19 for the long haul. The plan imposes risk-based criteria on tightening and loosening COVID-19 allowable activities and expands the length of time between changes to assess how any movement affects the trajectory of the disease.

Like every aspect of California’s response, data and science are the North Star, and as a result, this new framework makes a number of changes to the state’s previous resilience roadmap.

Californians can go to covid19.ca.gov to find out where their county falls and what activities are allowable in each county.

“This Blueprint is statewide, stringent and slow,” said Governor Newsom. “We have made notable progress over recent weeks,

but the disease is still too widespread across the state. COVID-19 will be with us for a long time and we all need to adapt. We need to live differently. And we need to minimize exposure for our health, for our families and for our communities.”

The Blueprint builds on lessons learned from the first six months of the disease – and the new scientific understanding that has been collected – to create a new system for regulating movement and COVID-19 transmissions. It includes:

1. At least 21 days to expand activities beyond the initial tier to ensure California better limits the spread of the virus;
2. Mandatory metrics – case rates and test positivity – to measure how widespread COVID-19 is in each county and guide what is allowed;
3. A uniform state framework, with four categories instead of 58 different sets of rules;
4. A more nuanced way of allowing activity: Instead of open vs. closed, sectors can be partially opened and progressively add to their operations as disease transmission decreases; and
5. A new process for tightening back up again quickly when conditions worsen.

The updated guidance can be found at <https://covid19.ca.gov/>.
