STATUS OF THE COUNTY GOVERNMENT

There are 2 confirmed COVID-19 cases in Monterey County as of today.

Shelter in Place

Monterey County Health Officer, Dr. Edward Moreno, will issue an order to Shelter in Place. You should read the Order closely when it is released. The Order shall become effective at 12:01 a.m. on March 18, 2020 and will continue to be in effect until 11:59 p.m. on April 7, 2020, or until it is extended, rescinded, superseded, or amended in writing by the Health Officer.

The Order will apply to the entire County but has many exceptions for different essential services and activities. For example, you will be able to go to the grocery store. You will be able to help loved ones. You will be able to walk in the park.

The purpose is to address Covid19. Everyone should continue using best practices to protect yourself and others, such as wash your hands, don't touch your face and maintain social distancing.

Attached is a press release and Frequently Asked Question and a Answer document. These both have helpful information. Continue to check the County Health Department website for updates and Orders.

Starting at midnight tonight, I am ordering all non-essential County government operations ceased. You will be informed

by your supervisors or department head about your obligation to report to work, work from home, work at a field location, to stay home, or another directive. You should stay in regular contact with your supervisor through phone and email.

These orders are currently scheduled to start at midnight tonight and be in effect until April 7, 2020. The orders may be extended.

Please be aware, we are looking to continue compensating employees during this time. Check with your supervisor on specifics. As we try to work with you, we appreciate that everyone works with us to implement these strategies reasonably and fairly. Please use good judgement.

If we stick together and care for one another we will get through this and be stronger together. Show compassion for your friends, neighbors, loved ones and even those you don't know.

Monterey County Operational Area Emergency Operations Center

The Monterey County Operational Area Emergency Operations Center (EOC) has activated to Level 2 (partial) to support the Monterey County Health Department in preparing for and responding to COVID-19 (Coronavirus).

Level Two activation is an increase from Level Three. This activation level is used for emergencies that require more than a minimum staff but would not call for a full activation of all organization elements, or less than full staffing. The EOC Director, in conjunction with the General Staff, will demobilize functions or add additional staff to functions as necessary based upon event considerations. Representatives to the EOC from other agencies or jurisdictions may be required under Level Two to support functional area activations.

[Emergency Proclamations](#)

All 12 jurisdictions and the County have declared the existence of a local emergency as of 03/18/20

JOINT INFORMATION CENTER (JIC)

This is an emerging, rapidly evolving situation and the County will provide updated information as it becomes available, in addition to updated guidance.
